In the majority of cases the scholarship awards will be confirmed automatically once the University has received the student's results via UCAS.

In those instances where qualifications are not picked up automatically, for instance non-UK, then applicants will have until the end of the first academic year of study to provide evidence of their qualifications to the University for consideration.

The University will also consider qualifications achieved that pre-date the existing year of entry so long as the overall profile meets the published criteria for the year of entry.

For international (non-EU) students joining Level I or a top-up degree in Level H, the criteria of this award may consider additional higher qualifications such as successful completion of a UK Higher National Diploma (HND) with an overall merit profile or equivalent level overseas qualification, if the Secondary School result is below the criteria**
